

TECH SHEET - STAGE DIAGRAM

OPTIMUM STAGE SIZE: 15 ft. wide x 9 ft. deep

LIGHTING: General stage lighting (spots/follow spots optional)

SOUND REQUIREMENTS: 7 microphones total: 3 for instruments (prefer condensers) and 4 for vocals, all mounted on boom stands. Need additional line for the acoustic bass pickup that is run through the amp and a standard wall outlet or power strip to plug in the bass amp.

FLOOR MONITORS: 2 monitors are sufficient, 4 are optimum in larger venues. All vocals and all instruments except the bass should be in the monitors with one monitor mix similar to the mix in the mains.
